## SURFACE MOUNT FRAMES & SUSPENSION KITS FOR LED PANELS

### Surface Mounted Kit

### Description

Our simple to install surface mount frames & suspension kits allow our recessed LED panels to be easily converted into surface mounted fittings for use on fixed ceilings.

We have surface mounted frames which fix directly to the ceiling, the LED panel is then easily slid into position, and the final side of the panel is fixed to the frame, giving a complete surface mounted fitting. The surface mounted frame kits are available for 600 x 600, and 1200 x 300 size panels.

We also supply surface mounted suspension kits. The kit contains four suspension wires and all relevant brackets & fixings. The suspension kits are adjustable to suspend the panel from as close as 10cm to the ceiling up to around 70cm away. The kits are suitable for use with all of our panel sizes, and one wire is connected to each corner of the panel.

### Suspension Kit

### Surface Mounted Frame

Code	Description
T402	White 600 x 600 Surface Mounted Frame
T404	White 1200 x 300 Surface Mounted Frame
T403	White 1200 x 600 Surface Mounted Frame
T405	4 wires hanging kit to suspend any panel

## Warning

- This product should be installed or maintained by trained electricians.
- Check integrity of the products when unpack the package and make sure there are no any damages, otherwise please call distributors for replacement.
- The distance between the light fixture and any flammable materials must be more than 20cm. The distance between the upper part of the installed light fixture and the ceiling must not be less than 2cm. The light fixture must not be installed into ceilings or walls that contain heat-insulating material.
- Please make sure to cut off power supply before installation, replacement or removal.
- Please read manual carefully and wire correctly.
- Do not remove the stickers on drivers or light fixtures
- Never leave children unattended in the vicinity of the light fixtures and do not allow them to play with electrical devices
- Never allow the fixture to come into contact with open flames or external heat sources, or UV rays.
- The products need special treatment of recycling after service time.
